

Raeder Motorsport: Season opening at Nürburgring We don't give up!

Around 230 vehicles started at the VLN 33. DMV 4 hour race of the BF-Goodrich Langstreckenmeisterschaft on April 12. This was a new record.

Raeder Motorsport started with two cars: one Lamborghini Gallardo and one AUDI A3-S3.

The AUDI had a great start and the team and drivers were really satisfied with the first race. The optimization of the technology and the weight of the A3 performed very well and the car clearly set the standard for the 2008 season.

The second Raeder Car, a Lamborghini Gallardo, had an accident in the 5th lap while overtaking. Another car collided head on. Driver Dirk Adorf and the Raeder Team were really disappointed as more than 10 days and more than 700 hours of hard work lay behind them. Nevertheless, the Raeder Motorsport Team is on the right track. All drivers were satisfied with the cars' set-up.

AUDI A3

Class SP3T 3. Place

Final classification: Place 111

Start N°. 355

Drivers: Deegener, Elmar
Wohlfarth, Jürgen
Breuer, Christoph
